

KNOWLEDGE TEST

1- What is the length of the safety zone around the rig?

- a. 200 m
- b. 300 m
- c. 500 m

2- The existing environmental impact can be:

- a. Only positive
- b. Only negative
- c. Both positive and negative

3- The area of influence of the Project was defined considering:

- a. The geographic area of direct and indirect impacts of offshore drilling activity
- b. The area established by the Term of Reference sent by IBAMA
- c. Only the area with the possibility of the presence of whales

4- If you see a boat or an animal near the rig, you:

- a. Continue your normal activity
- b. Stop your activity to tell your supervisor or the Environmental Responsible of the rig
- c. Announce by VHF radio

5- If there is an oil spill, your first reaction is:

- a. Trying to figure out how to respond to the spill
- b. Continue to perform your normal activity
- c. Stop your activity to communicate the control room

6- Recyclable wastes are:

- a. Those that can be used as raw material for the production of new products
- b. Those that should be thrown out, because they have no more use
- c. Those that consist only of glass

7- According to the color standards, BLUE and GREEN represent respectively:

- a. Paper, paperboard / Dangerous Waste
- b. Paper, paperboard / Glass
- c. Metal / Wood

8- According to the color standards, ORANGE and GRAY represent respectively:

- a. Dangerous Waste / Non-Recyclable Waste
- b. Recycling Waste / Hazardous Waste
- c. Non-Recyclable Waste / Plastic

9- The objective of the environmental monitoring project is:

- a. Evaluate the drilling activity impacts in the environment
- b. Provide employment in fishing communities
- c. Respond to an oil spill

10- What measure was adopted by Perenco to ensure an immediate response to an oil spill at sea:

- a. Hired a shore base with response equipments for oil spill
- b. Maintains a dedicated vessel next to the rig at full time
- c. Developed an environmental impact study

TRAINING EVALUATION

1- Did the course achieve its objectives?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

2- Was the workload of the course satisfactory?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

3- Was the language used clear and objective?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

4- Were the facilities adequate?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

5- Was the presentation developed for the training satisfactory?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

6- Was the quality of the content presented by the handout satisfactory?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

7- Would you say that you took advantage of the course?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

8- Do you think that you can apply the knowledge gained in your work?

- a. Yes
 - b. Partly
 - c. No
- Why? (Optional)

9- What is your opinion about the technical content of the instructor and about the conduction of the training?

- a. Optimum
- b. Good
- c. Regular
- d. Bad.

10- Have you ever participated in similar training?

- a. Yes
- b. No
